The site on Barnhouse Lane was welcomed but a stipulation that no further development on this site be allowed, could highways be consulted upon with regards to the road infrastructure for this site . Could the number of houses, sitings, and heights be included in the detail of the outlined planning application. The Parish Council feels strongly that they could not support any more houses on this site than the current proposed amount as there are highways and road infrastructure issues that would impact on residents if this development was increased. The Parish Council welcomed the Green Space and the proposed pedestrian footway from Barnhouse Lane to the Village.
